CURTAINS

Screening off for welding, washing and grinding work

Motor Roller Curtain

The standard curtain fabric is opaque but also available in a combination of transparent and opaque material. Maximum size: 7000 mm wide, 4000 mm drop. For exact colour rendering, ask for our colour samples. Delivered with control unit for height adjustment. The control unit is designed for wall mounting.

Art. no. BDM 100 Roller Curtain, please state size.

Art. no. BDM 200 Control Unit.

Workplace Screening

Workplace screening used for welding/grinding jobs at car repair or car body shops. Customized curtain size. The opaque fabric is flame and tear resistant PVC-coated polyester; the fully transparent fabric is flame-resistant, softened PVC. For exact colour rendering, ask for our colour samples. See information on the back for mounting.

Art. no. BDA 100 Workplace Screening, please state size.

Welding Curtains

Welding curtains mainly used for screening off welding/grinding workplaces. Curtains are customized. The opaque fabric is flame and tear resistant PVC-coated polyester; the fully transparent fabric is UV-absorbing and flame-resistant.

See information on the back for mounting.

Art. no. BDB 100 Welding Curtain, please state size.

Safety Curtains/Weatherproof Safety Curtains

Safety curtains/Weather proof safety curtains for outdoor material storage or indoor screening off, e.g. in sports centres. Weather proof safety curtains equipped with a bottom hem chain weight for use at car washing plants or places in a need of protection from splash of water. Curtains are customized. Material: flame and tear resistant PVC-coated polyester fabric. Our safety curtains are also available with transparent windows. For exact colour rendering of the curtain fabric, ask for our colour samples. See information on the back for mounting.

Art. no. BDC 100 Safety Curtain, please state size.

Art. no. BDG 100 Weatherproof Safety Curtain, please state size.

Roll Curtain

Mobile roll curtain for screening off temporary workplaces. The roll curtain is equipped with pivot wheels, two of them with brakes. Curtains can be linked together using a special plate. The roll curtain is customized. Material: flame and tear resistant PVC-coated polyester fabric, also available with transparent windows.

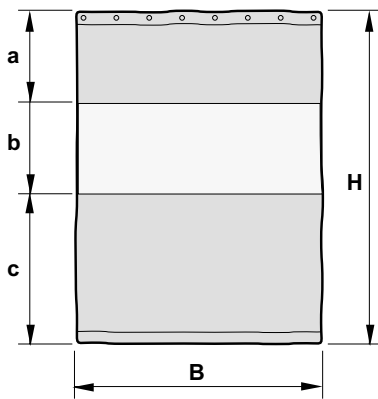

Standard size:

W = 2000 mm, H = 2100 mm

For exact colour rendering of the curtain fabric, ask for our colour samples.

Art. no. BDR 100 Roll Curtain

Welding Curtains

Standard curtain fabric is supplied with eyelets c/c 400 mm at the top.
When ordering, always state size, colour, design, transparent windows etc.
W= width including folding allowance (about 10%)
H = total height
a, b and c = measurements stated when windows or contrasting colour is required

Opaque colours:

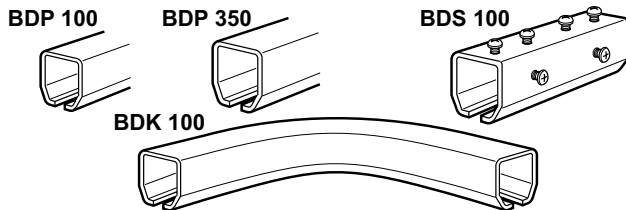

Transparent colours:

For exact colour rendering of the curtain fabric, ask for our colour samples.
 Curtains are approved according to EN1598, flame-resistant according to DIN 4102.
 Weight 620g/m²

Rails

Galvanized rail, length 6 m

BDP 100 28x30 mm
BDP 350 40x40 mm

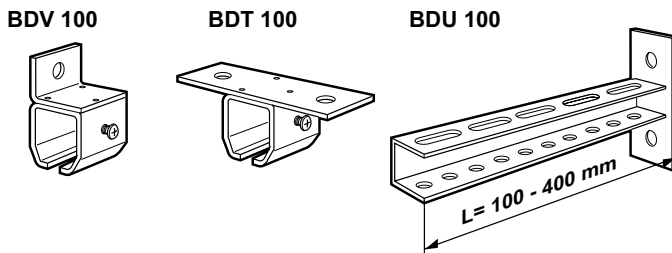

Galvanized joint

BDS 100 for rail P 100
BDS 350 for rail P 350

Galvanized bend 90°

BDK 100 for rail P 100, radius 500 mm
BDK 350 for rail P 350, radius 600 mm

Brackets

Galvanized wall bracket

BDV 100 för skena P 100
BDV 350 för skena P 350

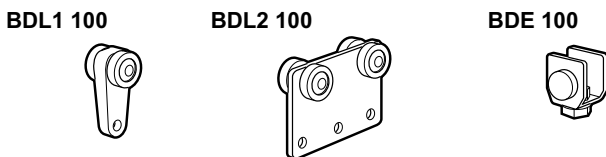

Galvanized ceiling bracket

BDT 100 for rail P 100
BDT 350 for rail P 350

Galvanized all-purpose bracket

BDU 100 for rail P 100 & P 350
BDU 200 for rail P 100 & P 350
BDU 300 for rail P 100 & P 350
BDU 400 for rail P 100 & P 350

Trolleys

Single trolley, plastic

BDL1 100 for rail P 100
BDL1 350 for rail P 350

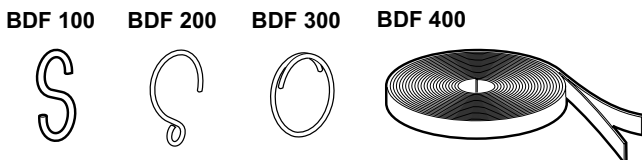

Double trolley, plastic

BDL2 100 for rail P 100
BDL2 350 for rail P 350

End cap for trolleys, zinc-plated

BDE 100 for rail P 100
BDE 350 for rail P 350

Curtain hooks

S-hook, 4 mm, zinc-plated

BDF 100

SH-hook, 4.5 mm, zinc-plated

BDF 200

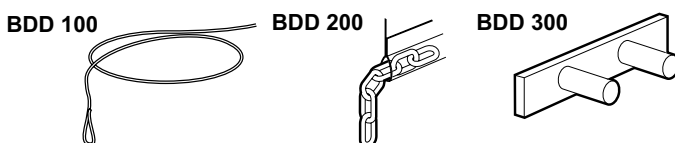

Steel ring, Ø 50 mm

BDF 300

Velcro fastening

BDF 400

Accessories

Nylon pull rope

BDD 100

Zinc-plated bottom hem chain weight

BDD 200

Plate for linking curtains

BDD 300
